

DISTANCE LEARNING: TRANSFORM THE ORDINARY

TASK

Take ordinary materials and transform them into a crown.

MATERIALS

Items found around/outside your house

INSTRUCTION

1. Optional: Watch the video "White Witch Crown."
2. Choose a character (from a play, a book, or a movie) who definitely deserves a crown. They don't have to be royalty, or wear a crown in their story, but because of their situation, their attitude, or their personality, deserve a crown.
3. Gather materials. They have to be from your home, or your backyard. And they have to be something you can "transform." Don't spray paint anything precious.
4. Look for ordinary materials that you can transform. The girls who made the white witch hat started with sticks and spray paint.
5. Make your crown. It has to be wearable.
6. You have two choices for submission:
 - a. Take a picture and send with it a reasons paragraph - who is the crown for, why do they deserve the crown, and this is visualized through the crown.
 - b. Make a video wearing the crown and state your reasons on the video.
